

How to Drive Through a Roundabout:

CHOOSE YOUR LANE

BEFORE ENTERING A ROUNDABOUT

Choose the proper lane before entering a roundabout, just like any other intersection.

Signs and pavement markings indicate lane direction.

Keep left to turn left and keep right to turn right.

Don't change lanes until you have exited the roundabout.

Drivers in the outside (right) lane are not allowed to turn left; they must exit the roundabout. Drivers in the inside (left) lane may exit or turn left.

The driver of the **RED** car is at fault for failing to obey the lane use signs and choosing the incorrect lane. Drivers turning left or making a U-turn **must** be in the left (inside) lane before entering the roundabout.

Signs and pavement markings on every approach remind drivers to choose the proper lane.

Failing to use the proper lane may result in an accident and/or ticket.
